## President's Message

**Bruce Martin**

Wow, lots of great soaring going on around the world. RMSA is certainly being well represented. Congrats to SKIP Miller for winning the open class division at the Nats, WTG!!!! He could not just stop there though. He went on in cross country to set a new course record of 69 miles and win that event as well. He did a great write up of it in the Nat news. Look it up it is worth the read. Then of course we have Cody Remington and Mike Verzuh representing us over in France at the F3J worlds. I have been constantly looking at RC Groups trying to get new information. It makes it hard to work thru the day. It looks like the whole team has been doing some fantastic flying. Cody won the opening Jura cup!!!! He was also flying well in the worlds but had a couple of issues that barely kept him out of the finals. I will leave the details for Mike to write up in a future newsletter. I am sure he will be back next cycle. Mike sure seems to be doing a great job as team manager. The whole team is flying well. DP is in the finals and doing well. The juniors all made the finals and placed first as a team!!! WTG. I can't wait to hear all the stories when they come back. Watch RC groups on Saturday to see how the finals turn out. Go USA!!!

The next club meeting will be at the contest on Sunday at the field. I have not had enough interest in indoor flying to set that up. Keep in mind that Blue skies over Colorado is coming soon. August 14-15<sup>th</sup>. I think registration is closed but you might check with Dave Jenson if you are still interested in getting in it. Even if you are not flying you should definitely come out to watch and help out. It is really a great H/L event and the Jensen's do a great job running it. You will get to see some phenomenal flying. The strategy and tasks that are used for H/L are a lot of fun to watch. Hope everyone can make it out.

Hope to see everyone out at the open contest on Sunday Aug 8th. The weather looks like it will be nice. Even if you are not flying come on out and say hello to the guys.

Please also keep in mind that we have a RES contest C/Ded by Blayne Chastain on Saturday Aug 21<sup>st</sup>. So we really have a full month of flying. No excuses on the RES contest people. It is the ONLY RES event that we are doing this year. So come out and claim your bragging rights for the year. Let's see what you can do with a non-moldie airplane. If you have never entered a contest before this a good one to get your feet wet on. Hope to see everyone out for this one as well.

Good flying all,

**Bruce Martin**

## NEW WINCH TRAILER

Fellow RMSA members:

Whelp, here it is the end of July. "Holy Crap", one starts thinking...time is really on the downhill slide and accelerating...***FAST*** !! Shortly we'll be reading the results of the F3J & F5B Worlds. Both of which we have some of our finest pilots competing in. Seems like just yesterday we were holding the F3J / U.S. team trials. Sheesh!!.

Any how, I digress.. As many of you know by now, thru the impeccable timing and diligence (as in searching) of Jim Monaco., our club acquired a new trailer to store and haul around our equipment. Soon after (actually I think it was the same day), Jim asked if I would be interested in modding the trailer for better storage usage. Well, like a dummy, I said..OK. Shortly thereafter I ask Jon Lovins (or did I simply tell him? Hmm.. I forget..hehe), "Wanna give me a hand at this makeover?". Without hesitation, he accepted and away we went. In all reality, I do believe Jon stepped forward without me having to ask. I took the trailer over to his shop and we promptly started in by ripping out any semblance of what the trailer **use** to look like. Well, long story short... after a few minutes of intense staring, calculating and exchanging various hand gestures, we grabbed the saws, screw guns and went to work. The pictures tell the rest of the story. IMHO, it's about 75% completed and came out quite well. This was a pretty healthy investment in time/money and sweat for just a hobby. But... I know we will all enjoy the convenience this transformation should bring us as a club. I just hope it's used in the manner it was meant to be. A **place** for **everything** and **not** having to leave anything in containers or thrown haphazardly on the floor anymore. I know this sounds semi preachy, but, I for one am very excited to have something strictly dedicated towards our club and hobby. As always, I believe the needs of the many should not rely just on the few. Everyone...should take pride in this thing and treat it as their own for years to come. I want to pass along a "**Big Thanks**" to Jon's employees, who did all the iron work for the spare tire/generator mount. Go to any iron works and see what they charge ya now-a-days, to measure, cut, weld and grind out angle iron from conception to finished product. It would probably floor you. No small task, I mind you. **And**..to Jon, for the use of his shop and time spent in making this project become a reality. Without his generosity, both with offering the use of his shop & valued help with the planning/constructing, I'd **still** be drilling holes or sawing wood in this triple digit weather.

Oh yea, bout forgot. We're still needing a bottle/scissor jack & lug wrench for the spare. So...look thru your piles of spare junk to see if you have something hidden in there.

Thanks .....Steve

## SUNDAY AUGUST 8<sup>th</sup> Open Contest    CD Bob Lewan

<b>REGISTRATION</b>	<b>Before 8:30 AM</b>	<b>Masters \$10.00 Sportsman/Novice \$5.00</b>
<b>PILOT'S MEETING:</b>	<b>8:30 AM</b>	
<b>FIRST FLIGHT:</b>	<b>9:00 AM</b>	
<b>Tasks:</b>	<b>F3J with winches. Or WSM 12 minute tasks</b>	
	<b>No skegs allowed.</b>	
<b>Battery Masters –</b>	<b>Please be sure to have your batteries at the field by 8:00 AM charged &amp;</b>	
<b>“topped-up”</b>		

## Blue Skies Over Colorado, August 14-15th

**CD Dave Jensen**

The Colorado leg of the Blue Skies DLG Series will take flight on August 14-15. If you haven't yet seen a regional-level DLG contest, I would encourage you to come out to the field to see what it's all about. We have a few of the top pilots from the West joining us, and competition should be at a high level.

A reminder to those who've registered -- On Friday, we're going to have some informal flying/training time during the afternoon, a DLG Poker Tourney starting about an hour before dusk, and a spaghetti dinner beginning (free for all registered pilots) right after that. On Saturday and Sunday we will begin with the pilots meeting at 8am, and first flight at 8:30.

Dave Jensen

## DETAILS NA

## July Open Contest Report CD Jim Monaco

It was a light turnout for such a nice flying day. Nine pilots showed up for the event so instead of the F3J that was scheduled we ran standard MoM TD. We had a new club member John Christiansen show up to play as a new Sportsman member. He was flying a full house Spirit that was launching pretty well. Unfortunately in Round 5 the spar broke on launch and John finished out the event with another built-up plane. The air was finicky and some groups got their times and others really struggled. In the 3<sup>rd</sup> round Bob Lewan won his group with a 5:17... I was flying my Pike Perfect ET and I really have not bonded with it. I flew very poorly and finished at the bottom of the pack. Almost everyone had one bad round except Bob Lewan who flew like a machine! Round 6 was brutal with everyone except Bob, Cody and Steve taking big hits. Unfortunately for Cody rounds 4 and 5 were not good so he finished down in the pack.

In the end Bob Lewan cleaned house with all 1000 rounds except one 997.4 – excellent flying Bob! Mike and Skip finished 2 and 3 well behind Bob.

John Christiansen was our Sportsman winner – besting all of the other (0) sportsmen, Hopefully we can get a few more out to give him some competition. John has since upgraded his fleet to one of my Supras. He will be much more competitive with his new ship.

The rest of the scores are posted below.

Jim

## July DLG Contest Report

Dave Jensen

We held a very successful contest and had what I believe to be a record turnout for an RMSA club DLG contest. We had a couple new pilots show up to join the veterans, and it made for a great day. The conditions were very challenging, with many occasions where one pilot was lucky enough to get the lift, while everybody else was left behind watching from the ground. The lift was sparse, and in very tight columns, but when you hooked up with it, it was an amazing ride.

Undoubtedly, the best thing about the contest was the first-timers. We had 2 pilots join us (Micah and Scott Ginn) who had never flown a contest before... for that matter, they both had less than a month of stick time on DLG planes, so the DLG competition world was very new to them. The veterans seized the opportunity to do some one-on-one training, and were able to instill a joy for DLG flying in these new pilots. We look forward to having them join us for more contests in the future.

Saturday & Sunday, August 14-15, 2010  
*Skyview RC Club and the Shriners  
are hosting the*  
**First Annual  
Prop Jockey Showdown!**  
This AMA-sanctioned  
**FUN-FLY**  
AMA promises to be an exciting event  
for the Panhandle!

Those traveling by RV will enjoy  
primitive on-site camping. No hook-ups.

Please Join in on all the events  
going on in Alliance for the weekend!

**Friday Events**  
Nebraska Veterans Cemetery at Alliance  
Dedication Ceremony 11am  
BBQ & picnic at Central Park  
P-51 Mustang Plane Rides & Photos  
1940's Dance at the Airport  
*Courtesy of the  
Nebraska Veterans Cemetery celebrations.*

Lunch will be served  
for pilots & their families  
on Saturday and Sunday.

Pilot registration is scheduled for  
Saturday morning between 8am-10am,  
preceeding the Grand Opening Ceremony.

Flying will begin both days at 8 am  
(or when the first pilot taxis the runway).

Two Air Shows are scheduled each day,  
one at 11:30 am and the other at 2:00 pm.

Throughout the weekend,  
aircraft will engage in aerobatics,  
pattern and scale events, among others!

## The Love Dress from Steve

A woman stopped by, unannounced, at her son's house.

She knocked on the door and then immediately walked in. She was shocked to see her daughter-in-law lying on the couch, totally naked. Soft music was playing, and the aroma of perfume filled the room. "What are you doing?!" she asked. "I'm waiting for Mike to come home from work," the daughter-in-law answered. "But you're naked!" the mother-in-law exclaimed. "This is my love dress," the daughter-in-law explained. "Love dress? But you're naked!" "Mike loves me and wants me to wear this dress," she explained. "It excites him to no end. Every time he sees me in this dress, he instantly becomes romantic and ravages me for hours on end. He can't get enough of me"

The mother-in-law left.

When she got home, she undressed, showered, put on her best perfume, dimmed the lights, put on a romantic CD, and laid on the couch, waiting for her husband to arrive.

Finally, her husband came home. He walked in and saw her laying there so provocatively. "What are you doing?" he asked. "This is my love dress," she whispered sensually.

"Needs ironing," he said. "What's for dinner?"

He never heard the gunshot.

## ROCKY MOUNTAIN SOARING ASSOCIATION FIELD RULES

1. The sod farm operations take precedence over **ALL** activities. We use the field at the convenience of the owner.
2. All members will follow **ALL** instructions from **ANY** sod farm personnel without question.
3. When sod farm operations are occurring during a flying session it is **OUR** responsibility to ensure that we will not interfere with operations. If it is unclear as to what is happening or where they intend to mow or work try to talk to workers or management and always move equipment or vacate the premises if necessary. Some workers do not speak very good English – in that case you must make every effort to avoid conflict or interference with operations.
4. Park only in the designated parking areas Do not park on grass, dirt or roads.
5. Avoid setting up on newly seeded areas or young grassy areas. The nice grassy areas are better to land on anyway!
6. Establish a frequency control pole and tag system! Frequency control is to be in effect at all times!! All members will post their frequency control tags on the pole and if there are conflicts, please exercise safety sense as well as share the flight time.
7. Parking and pit areas should be as condensed as possible for the safety of launch and landing.
8. Establish flight line areas for winch launch, high start launch, and hand launch that are separate for the sake of launch, flight & landing safety.
9. Flying over the parking/pit areas at less than 30 feet is prohibited. Doing so in competition **WILL** result in a zero flight score and during R/R flying a disciplinary action by the club.
10. No aerobatics or speed runs over the parking/pit/Launch/Landing zones.
11. Do not launch if a plane is circling in a launch zone: vacate the launch zone as soon as possible if someone is waiting to launch.
12. When entering a thermal occupied by other aircraft, enter in the same direction as the first aircraft
13. Landing aircraft have the right of way!
14. In the event of no mechanical retriever, please shag your own chute/line for the flight
15. Please share the usage of club equipment so that all have equal flight time.
16. Please be courteous and helpful to your fellow flyers as well as informative to all guests/spectators. Enjoy yourself and others!!
17. Absolutely no debris or trash is to be left on the field! Please take it home with you for disposal.
18. Make sure that your plane and electronics are airworthy before each flight. Exercise good safety sense in your flight
19. The aircraft will have an identification name/address or AMA number on or in the model in case of loss.
20. You **MUST** tag your winch/high start spikes or stakes with fluorescent tape so they are easily spotted on the field by all concerned. Members may be fined \$10 for each stake or nail not so marked. Previous damage to sod farm equipment from spikes left in the ground has made this rule **EXTREMELY** important.
21. Absolutely no alcoholic beverages will be consumed, prior to or during participation in any model event on the flying field.

I understand and will comply with all RMSA field rules:
